CORPORATE PROFILE

LTS Mobile Solutions Limited

One Stop Supply Chain Management

Built for controlled execution

LTS Mobile Solutions Limited is headquartered in Hong Kong and provides coordinated supply-chain support for mobile-device components and related products.

Our Shenzhen operations, quality-control and logistics center manages the practical work from sourcing and receipt through inspection, packaging and dispatch. The team brings more than 20 years of industry experience to every engagement.

HEADQUARTERS

Hong Kong

Registration No. 81092135

OPERATIONS CENTER

Shenzhen, China

TEAM EXPERIENCE

20+ years

PRIMARY FOCUS

Sourcing, quality control, custom production and logistics

A three-hub operating footprint

01 / HEADQUARTERS

Hong Kong

Corporate headquarters and administration.

02 / OPERATIONS

Shenzhen

Sourcing, quality control, packing and logistics execution.

03 / PARTNER WAREHOUSE

Las Vegas

Partner warehouse supporting international distribution.

OPERATIONAL CAPABILITIES

From sourcing to shipment

Integrated supply-chain services

01 Product & factory sourcing

We identify suitable products, manufacturers and production partners against each customer's technical, commercial and quality requirements.

02 Product development

Planning, design and manufacturing coordination for customized products, from requirement definition through production follow-up.

03 Packaging development

Custom packaging planning, design and production tailored to the product, brand presentation and transport conditions.

04 LCD & parts quality control

Inspection against a Grade A standard, with defect filtering before goods proceed to packing and dispatch.

05 SKU library management

Structured customer SKU libraries, packing lists and product-level records support accurate labeling, receiving and reconciliation.

06 Supplier & factory oversight

Supplier evaluation, defect-rate monitoring and on-site factory inspections across China support consistent execution.

One accountable workflow

LTS connects product sourcing, development, quality control, packaging, documentation and logistics under one coordinated operating process.

GLOBAL LOGISTICS

Coordinated delivery, end to end

Carrier and freight coordination

We work across express, air and sea channels to match shipment requirements, destination conditions and supporting documentation.

FedEx	DHL	UPS

Air freight

Coordination for time-sensitive and consolidated cargo movements through suitable air-freight channels.

Sea freight

Planning and coordination for larger-volume cargo, including shipment preparation and required documentation.

Destination customs clearance

Support for shipment release in the destination country through coordinated customs-clearance handling.

Permit handling

Coordination of documentation and required approvals relevant to the product, shipment and destination.

A controlled operating process

STEP 01

Define & Source

Requirements are translated into product, factory and packaging options.

STEP 02

Develop & Inspect

Production is coordinated and goods are checked to the defined quality standard.

STEP 03

Pack & Document

Approved goods are packed, labeled and documented by SKU and quantity.

STEP 04

Deliver

Shipments are routed and supported through clearance and destination release.

Headquarters

Unit R2, RM D, 16/F, Kin Ga Indl Bldg,
9 San On St, Tuen Mun, Hong Kong
